

# **BAD MONEY**

*(di Fraternali – Bracci)*

My Best friend also deadly a virus  
money is the indispensable need  
money is our ruin and despair  
we must live and die for it.

We defend ourselves with all we can  
We get together in big complex structures  
Each day we stab each other to survive  
But when the system wants it murders us  
We defend ourselves with all we can  
We get together in big complex structures  
Each day we stab each other to survive  
But when the system wants it kills us.

***(BAD MONEY!)* We are slaves of a damn dumb system**  
***(BAD MONEY!)* Free with a noose around the neck**  
***(BAD MONEY!)* Exploited by a greedy system**  
***(BAD MONEY!)* But all we want is our freedom back.**

*(Instrumental)*

We're forced to climb vertical walls  
We're done by the law of the system  
We've become our own slaves  
We are now where there's no turning back.

We defend ourselves with all we can
